

New Mexico State University

Graduate Studies in Mathematics

Join a department that prides itself on a commitment to research and mentoring. Our excellent 2-to-1 student-faculty ratio offers you the opportunity to work closely with faculty and other students. Choose from a variety of courses and research areas such as Algebra, Applied Mathematics, Foundations, Partial Differential Equations, Probability, and Statistics. Seminars, colloquia, and working groups engage students in an active and stimulating research climate.

Graduate Assistantships are available for both Master's and PhD students. Typical duties consist of 20 hours per week teaching a course, grading, or conducting a lab. Stipends are approximately \$19,000 a year, and a limited number of Kist Fellowships are available to pay tuition. The city of Las Cruces offers a low cost of living, affordable housing, and a beautiful southwest setting with great weather and many opportunities for cultural and outdoor activities.
